

Coveralls & Bib Overalls

Coveralls and Bib Overalls are available in Alpha and Numerical (chest size). Pro Tip: For best results measure over your undergarments. Use a cloth measuring tape. If you fall between sizes, size up.

Find your chest size

Measure around the fullest part of your chest, just under your arms.

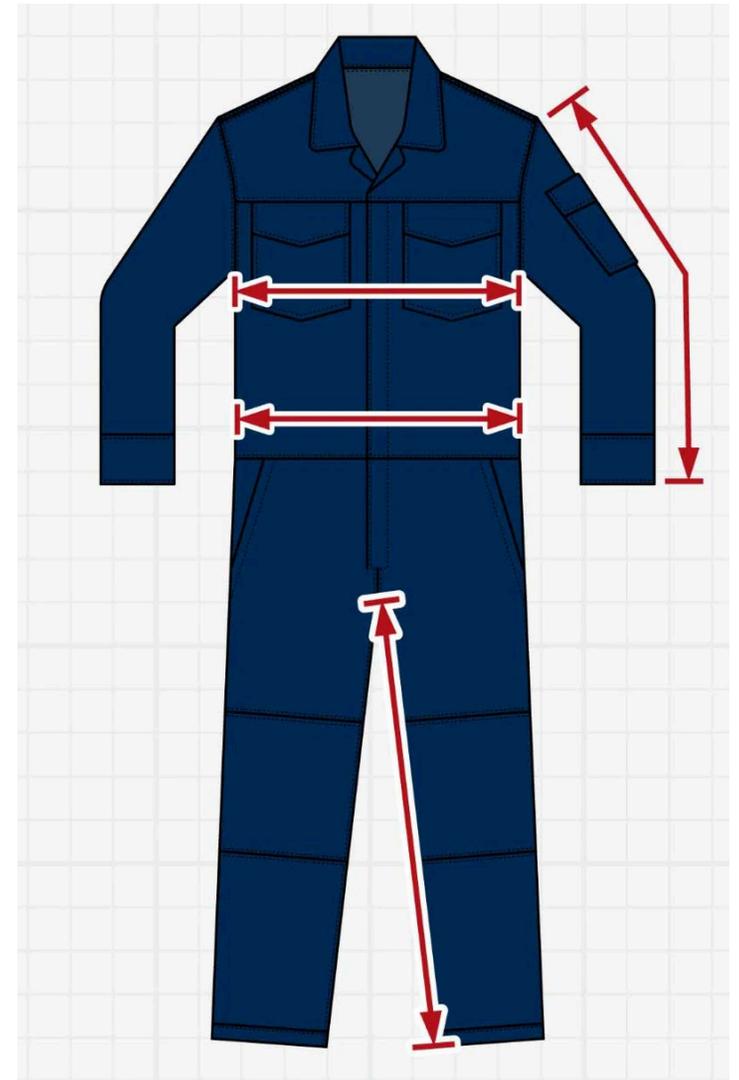

Measure your inseam.

The inseam is from the interior leg hem (bottom) to the interior crotch. Pro Tip: Use a pair of pants that fit you well. Measure them laying flat, along the inside seam from the bottom of the hem to the interior crotch.

Length by height:

- Short is suggested for 5'3" - 5'7"
- Regular is suggested for 5'8" - 6'
- Tall is suggested for 6'1" - 6'4"

Differences between Regular & Tall Sizing

- Tall sizes are 2" longer than Regular sizes in body length.
- Tall sizes are 1" longer than Regular sizes in sleeve length.
- If your size is not available in Regular, we suggest going down a size in TALL as a complimentary size. Equally if your size is not available in TALL, we would suggest going up a size in Regular. The extra length in Tall can in some cases accommodate a Regular size up, and the extra fabric in a Regular size up, can sometimes accommodate a taller silhouette.
